March 19<sup>th</sup> 2020

Dear Educational directors,

As a result of the current situation in Europe due to the Covid19 outbreak and its fast propagation, many training programs might be affected. The EuroTAB has already been consulted on the possibility of conducting part of the segment online. Our position is that in this exceptional situation in which the mobility of people and their ability to gather in one place is limited, it can be a very good solution for a limited amount of up to 5 days, meaning 25 hours of training in total.

At the same time, we are very interested to know what your plans are and how you prepare for such a new challenge. We consider it a good opportunity to discuss the innovation and the creativity needed for the organization of online learning, and if possible, share it with others.

Furthermore, we would very much like you to inform us about this new experience. Since we are involved in the evolution of trainings guidelines, we are sure we could benefit from your feedback.

As you may know, an InterTAB group is being formed in order to revise the training accreditation guidelines. The purpose of this group is to provide ideas to adapt the TAGs to the new necessities, so your feedbacks would certainly serve this purpose.

In hope of better times

Yours

F. Armand  
Chair of EuroTAB  
On behalf of the EuroTAB
